

Concept overview

- **4** Trendy and Stylish New design
- **4** Enhanced Segmenting/Positioning
 - 6 Models & 7 Options
- **Lessier operation like Mobile Phone with Soft & Navigation Keys**
 - Call Log/Multiple melody etc.
 - Interactive Call Handling
 - Easier user interface
- **4** Future ready with Value Added features
 - Individual Voice recording using USB option
 - Wireless solution with Bluetooth Interface

Design Overview

- **4** More attractive look with LG Identity
- **4** Better LCD view with both LCD tilting and base tilting
- **LCD**

1) Available with optional module

LDP-7016D

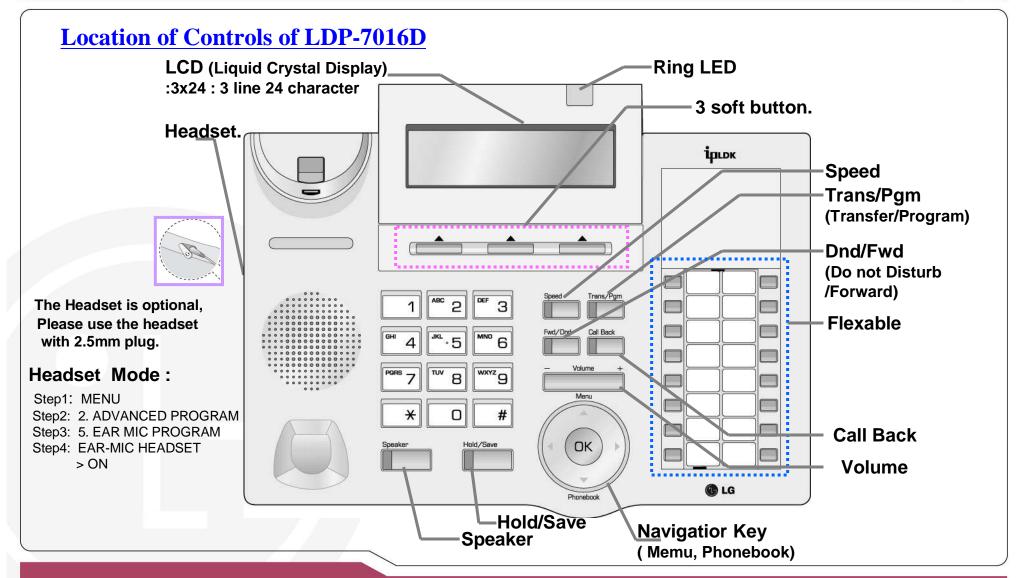

Essential and Standard Digital Keyset

Features

- Trendy and Stylish LDP Family design
- Multi Level 3 Line LCD (3*24): 24 character
- Dual LED 16 Flexible btns
- 7 Fixed btns to maximize convenience
 - Interactive Call Handling with Soft Keys, Navigation Keys, Phone Book, Menu.
- Additional Device Port for SLT and FAX
- Call Log
 - Dialed / Answered / Missed
- Various Option Modules
 - CTU, MFU, FU, MU

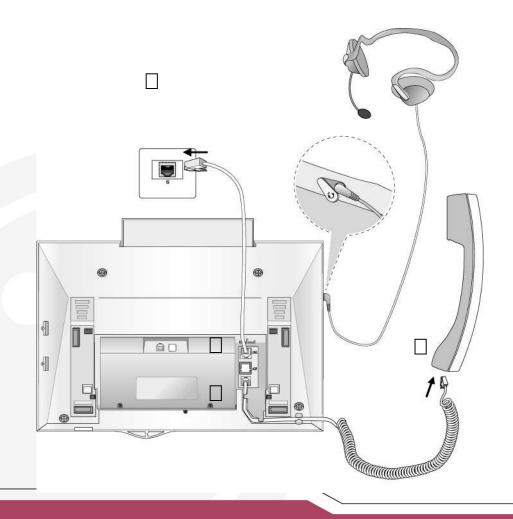

CABLE CONNECTION of LDP-7016D

Cable connection

- Connect the end of the telephone cord to the handset and the other end to the handset jack at the bottom of the telephone.
- port at the bottom of telephone and the other end to the switch port.
- Donnect the Earphone to the headphone jack at the left side of the telephone. (In case front view of the base.)
- THE HEADSET IS OPTIONAL, Please use the headset with 2.5mm plug.

LDP-7024D

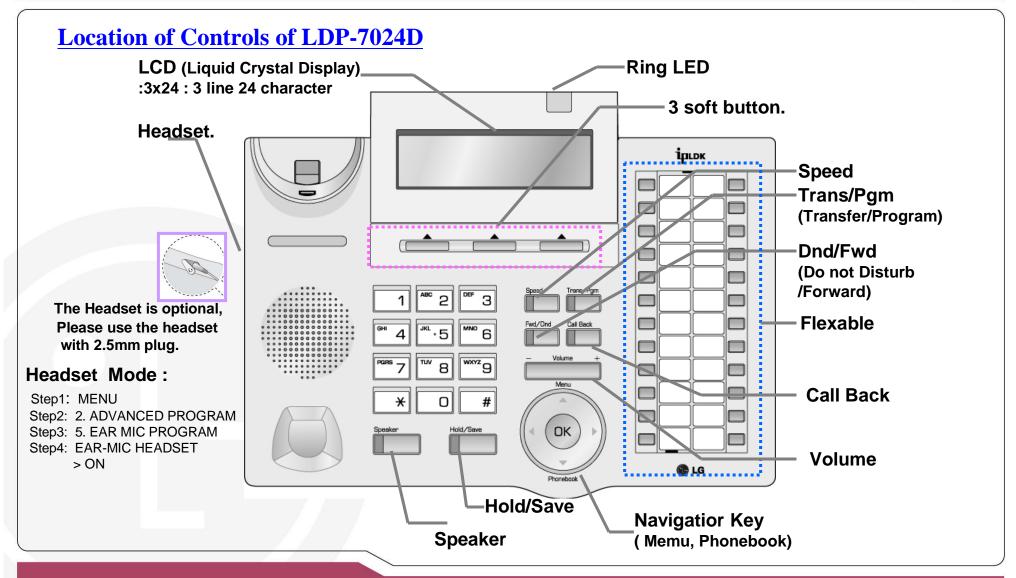

Leading and Highest Level Digital Keyset

Features

- Trendy and Stylish LDP Family design
- Multi Level 3 Line LCD (3*24)
- Dual LED 24 Flexible btns
- 7 Fixed btns to maximize convenience
 - Interactive Call Handling with Soft Keys,
 Navigation Keys, Phone Book, Menu.
- Individual Call Recording Feature (USB Option)
- wireless headset Solution (Blue tooth, Option)
- Additional Device Port for SLT and FAX
- Call Log Feature
- Value-up Option Modules
- BTU, USB

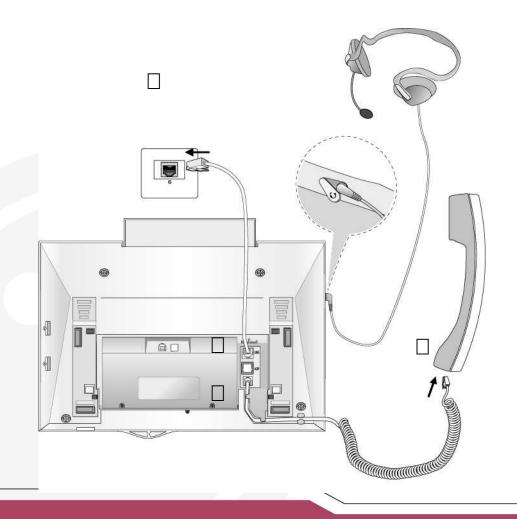

CABLE CONNECTION of LDP-7024D

Cable connection

- Connect the end of the telephone cord to the handset and the other end to the handset jack at the bottom of the telephone.
- port at the bottom of telephone and the other end to the switch port.
- Donnect the Earphone to the headphone jack at the left side of the telephone. (In case front view of the base.)
- THE HEADSET IS OPTIONAL, Please use the headset with 2.5mm plug.

LDP-7024LD

Dignity Digital Keyset with Large LCD

Features

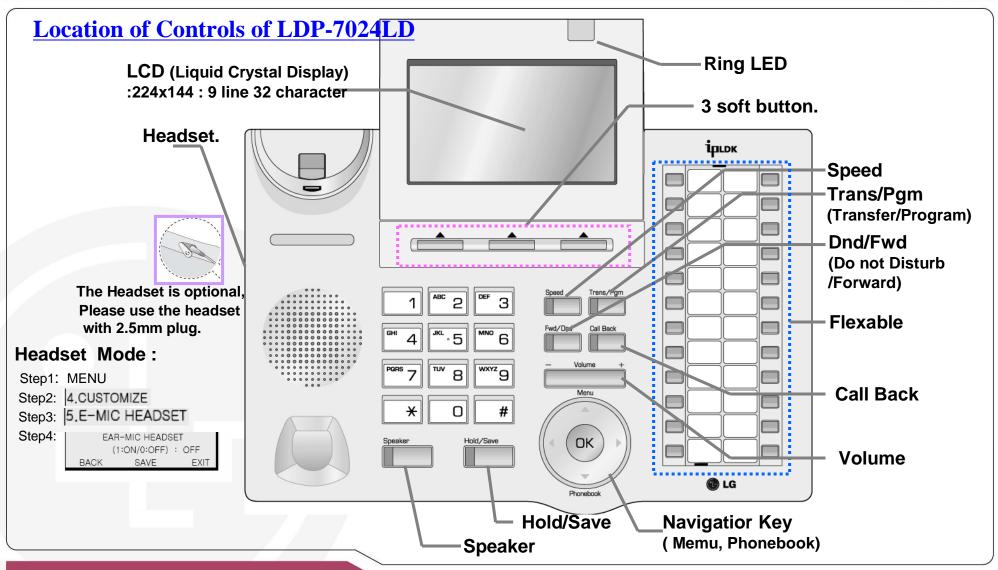

- Trendy and Stylish LDP Family design
- Multi Level Graphic LCD (9*32)
 - Limited Local SMS Feature, Phone Book, Scheduler
- Dual LED 24 Flexible btns
- 7 Fixed btns to maximize convenience
 - Interactive Call Handling with Soft Keys,

Navigation Keys, Phone Book, Menu.

- Call Recording Feature (USB Option)
- wireless headset solution (Blue tooth, Option)
- Additional Device Port for SLT and FAX
- Call Log Feature
- Value-up Option Modules
 - BTU, USB

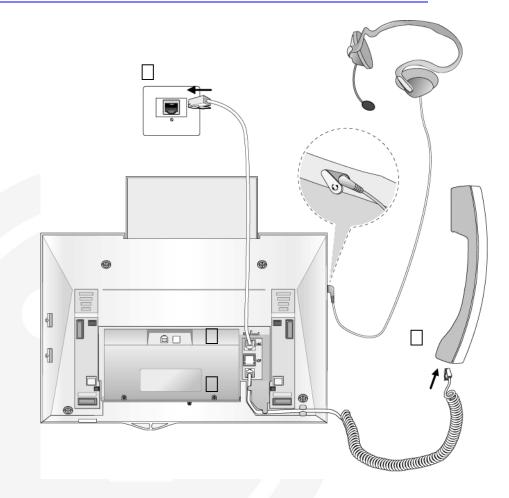

CABLE CONNECTION of LDP-7024LD

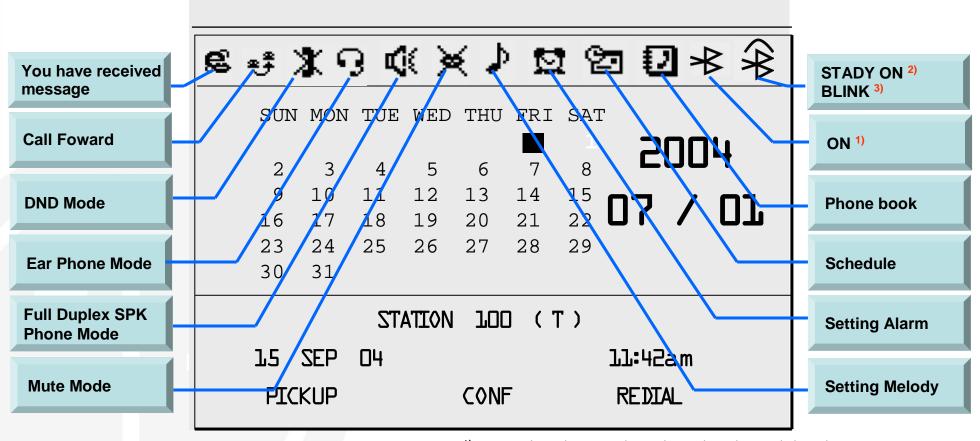

Cable connection

- Connect the end of the telephone cord to the handset and the other end to the handset jack at the bottom of the telephone.
- port at the bottom of telephone and the other end to the switch port.
- Donnect the Earphone to the headphone jack at the left side of the telephone. (In case front view of the base.)
- ☐THE HEADSET IS OPTIONAL, Please use the headset with 2.5mm plug.

ICON Discription ON LDP-7024LD

LDP-7000USB

Enabled Individual Call Recording Feature thronging USB Module

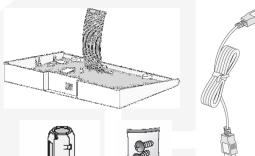

Features Melody

- USB 1.1(Universal Series Bus) Interface.
- Enables you to record the messages on the phone.
- Enables you to save the recorded messages to file and to play the saved file.
- Enables you to send other people the file as an e-mail attachment.
- Available with LDP-7024D/24LD.
- Voice Recording Application Program required for recording.

Installation

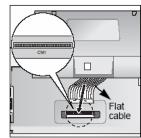

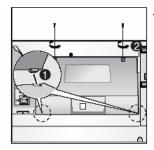

Ferrite core

(1ea)

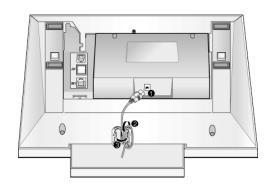

- Connect the flat cable into the optional connector on the keyset, making sure that it is connected securely.
- The connector number is different according to the keyset.
- LDP-7024D: CN1
- LDP-7024LD: CN6

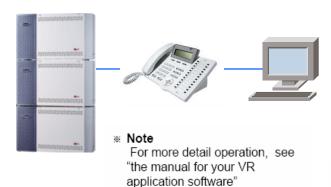

- Hook the option module cover onto the Keyset base (line up the protrusions on the cover with the receptacles on the keyset base).
- And then turn the screw clockwise to tighten.

- When connecting the USB cable to USB, a ferrite core must be attached for suppressing EMI. (Wrap the cable once around the ferrite core, then close the case of the ferrite
- Attach the ferrite core 3 cm away from the connector.)

Maximum Length of the USB Cable is 3 meter.

* Caution Warning The Optional Unit connection should make earlier and break later than the line cord.

(2ea)

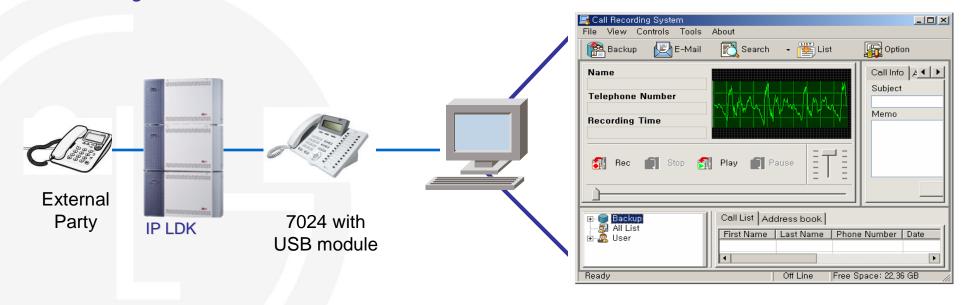

Set-up Application Program

- a. Extract the installation file: Setup_1.0Ae_New.zip
- b. Click the setup file: Setup.exe
- c. Setup start End (Yes Click for all guide)
- d. Select the Drive :

C:\Program Files\LG Electronics\LGCRS\Win2kUSVDrv

Managing Software

Start voice Recording

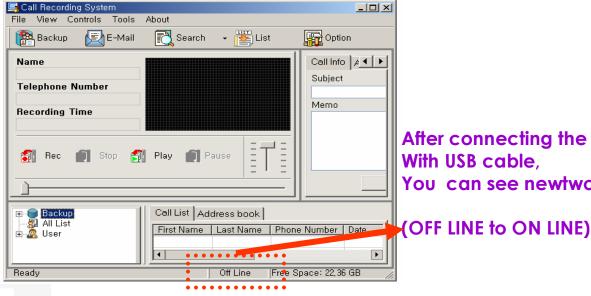

After Implement the USB and setup the Application Program

1) Click "LGCRS"

[Program "Execute" ICON]

After connecting the USB to PC With USB cable,

You can see newtwork status.

LED Indications

LED	Function		
LED1	Steady ON: Programmed PLD (Green)		
LED2	Flickering : For Voice Recording		
LED3	Flickering : Serial Data Communication		

LDP-7000BTU

Wireless solution with Bluetooth Interface

Features Melody

- Move freely around office
- Attendant, call center agents application
- Available with 7024D and 7024LD
- compliant with and adopts the Bluetooth Specification 1.1.
- Support Bluetooth Handfree or Headset Profile
- Interoperability between the LDP-7000BTU and other Bluetooth headset is not guaranteed because it depends on compatibility.
- Bluetooth headset model supported by LDP-7000BTU

Jabra BT-200 Jabra BT-250 Plantronics M3000 Motorola HS810

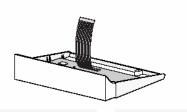

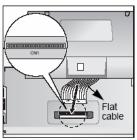

Installation

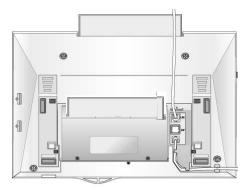

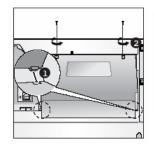

Screw (2ea)

- Connect the flat cable into the optional connector on the keyset, making sure that it is connected securely.
- ** The connector number is different according to the keyset.
- LDP-7024D: CN1
- LDP-7024LD: CN6

Hook the option module cover onto the Keyset base (line up the protrusions on the cover with the receptacles on the keyset base). And then turn the screw clockwise to tighten.

* Caution Warning The Optional Unit connection should make earlier and break later than the line cord.

Description of BTU

System description

Frequency band(s) of operation : 2400 - 2483.5 MHz

Operating frequency : 2400 – 2483.5 MHz

Channel spacing/bandwidth : 1 MHz

RF output power : - 0.3 dBm

Type of modulation : GFSK

Type of antenna : Mono Pole

Mode of operation (simplex/duplex) : duplex

Duty cycle (access protocol, if applicable) : Up to 100%

Equipment class : 1

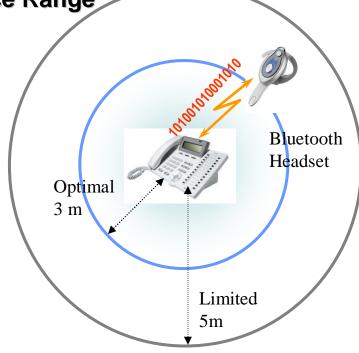

Statement of Opinion

by the Notified Body TÜV Rheinland Product Safety GmbH according to the R&TTE Directive 1999/5/EC

Notified under No. 0197 to the EC Commission

Registration No.: RT 60009409 0001
Report No.: 21113613 001

Performance Range

- 1. Optimal performance range: up to 3m.
- 2. Limited performance range: up to 5m.
- 3. Performance range may be decrease in case of the collision with the wireless LAN (802.11b)

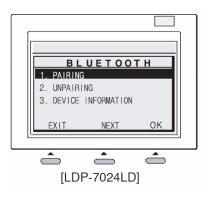

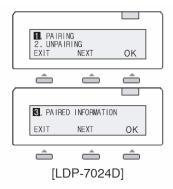

Set-up BTU and BT headset

- a. Enable the Bluetooht Usage (PGM + " * " + " 4 ")
- b. Should first pair LDP-7000 BTU with the headset you want to use.

During pairing it is recommended that the headset and LDP-7000BTU are not more than 1 metre apart - with no solid objects in between.

c. you can erase paired information and pair LDP-7000 BTU with new headset.
